Hundreds In Maysville Gathered Ir Churches and Homes To Greet the New Year.

The year 1915 is now a "has been," and last night as the bells tolled 12 o'clock there was a mighty clangor all over the city and land announcing the birth of 1916.

Several of the Maysville churches nited with the Third Street M. E. church last night to watch the death of the Old Year and the birth of a new one.

From 9 until 10:15 o'clock a very interesting program consisting of short talks, readings and songs, deighted the large crowd present.

From 10:15 to 11:15 a social hour vas enjoyed. Refreshments were served, a splendid number of th eague's paper was read and other soial diversions were enjoyed.

From 11:15 until midnight the Comnunion of the Lord's Supper and a consecration service was held in the upper room of the church.

At the Second M. E. church, South, another interesting program was car-

From 8 to 9 o'clock a prayer service was conducted by the pastor.

From 9 until 11 a program of songs ddresses and readings was greatly njoyed.

From 11 until shortly after midnight consecration and altar service was ield to pray the Old Year out and the New Year in.

At various Maysville homes gay pares were held to inaugurate the comng of the New Year.

Incidentally the passing of 1915 parked the passing of Maysville's loons. Nearly all the saloons had old their stock of goods before 11 clock, and closed up shop. One saoon closed early in the afternoon on occupt of having run out of a stock of "wet goods."

Goodby, saloons, goodby.

Remember, the same tickets are nod for both dowings. Don't through

Supervisor's Report.

The bells have rung on the 1915 market. It closed high, very high. We sold Friday 206,205 pounds at an average of \$11. The factories realize this is a short crop and unquestionably the market will keep strong. While I see no indication of any decline, I can not say to any that they can expect any advance and would advise to sell as fast as ready.

LOOKING A YEAR AHEAD.

We are face to face with the problems of another year. It may r us much or little, as we choose. The question is, what do we In the parlance of the street, "it is up to us."

ing we need is greater commercial activity. But how are

ars past farmers have been shipping their products away et in small quantities and realizing small profits while the rapacious middlemen have rolled in the gold that should have found its way back to the farms. And the loss to the farmer is likewise a loss to the town and the community in general.

We should not permit another year to go by without remedying this glaring defect in our system. It can be done.

The business men of Maysville should all get together and devise some method whereby they can market the products of all of the farmers quickly, economically, and without the aid of so many hungry go-betweens. It may take a little brain work, and a trip or two to some central market in order to put the sceheme into prac. tical working order, but it can be done if it is undertaken in the right spirit.

When the business men look after the interests of the farmers in this respect the farmers will reciprocate by giving them the im mense, volume of their business that is now going to other sources.

An agricultural clearing house is needed in Maysville. The new year should see a movement on foot for its establishment, and the end education, individual liberty, political country. Lack of unity and discipline had charge of the torpedo station at of the year should see it in practical and successful working order and with everybody happy and satisfied.

Too many of us are strangers to each other in this community. where we should all be brothers and dwell together in unity for the common good of all.

And that is because there are entirely too many hard and fast cliques and sets, with each immersed in its own shell and never a peep at the light of outer day.

We need a common ground for meeting, where neighbor greets eighbor and the stranger finds himself at home and among friends. If co-operation is good in commercial affairs it would of equal benefit in private and social life. It would afford us a more in timate knowledge of humanity and a broader perspective of life, and the resultant spirit of good fellowship would be felt in a thousand

A year of "getting together" would stamp a wonderful imprint upon the heart, the soul and the conscience of this community.

We can meterially benefit Maysville and Mason county if we begin right now to make it a year of production and prosperity. It would be difficult to find one among us who could not in some manner increase the result of his labors during the coming year. and with eac hof us persevering to this end the year's profits would mount high in the financial column of local history.

While considering our own individual interests we might dwell on those of the community in which we dwell, for what is of all of the people is of equal value to us.

are showing them from the satisfactory prices we have been getting. On a crop of 1,665 pounds raised by Chas. Chandler on Wyatt Owens' farm, we averaged \$20.38, one basket bringing \$52 per cwt., another \$49. Another crop raised by C. Barrett on the same farm averaged \$19.64, the high basket bringing \$49. This shows that Maysville is the market and GROWERS the house to sell in.

Attention, Mr. Farmer

C. M. Jones, Manager. R. B. Holton, Asst. Manager.

Many farmers have begun to see the light at "THE LIB-ERTY WAREHOUSE," of Maysville, Ky., which is not in the "COMBINE," and has the largest sales floor in Maysville and second largest in the county. The managers of THE LIB-ERTY WAREHOUSE promise the farmers nothing more than the best they can do as tobacco warehouse men. We do not claim that which is not ours by right, and have no time to knock other markets, as we are too busy boosting our own sales and the result is that new faces are seen on our sales floor each day and those faces are wearing a smile when their owners leave town.

Mr. A. M. Perry is our auctioneer and the man who helps you get the high dollar.

Let Charlie Jones place a smile upon your face by selling your tobacco with him where every man gets a square deal.

LEAP YEAR WITH US AGAIN.

Even in the midst of war's alarms and the busy upbiulding of business, the romantic fact must not be overlooked that the new year which opens today is "leap year." From now on ne bachelor is supposed to be on the lefensive; at least the jokesmiths will have it so. The weaker and more an gelic sex may now forget the customary shyness of their kind and put the reverse lever on conventions by pop-They may pop and they may not, they may win a hubby and they may not. Statistics fail to show the results business transactions and financially achieved in other leap years. But there will never be a lack of topic for talk during the year. Perhaps it will sound like a relief from the weather talk, but it is bound to be monoto nous before the 366 days have expired. Why and when it became a year for the "female of the species" to propose matrimony to the male is an unalienable right, without loss of maidenly dignity, is not set down in tradition. Possibly it was inspired far back by a feeling of gallantry, ordaining that the girls should be given a chance at playing the principal role in the lottery of marriage. Or perhaps, as the skeptical are wont to think, it is just

huge joke in itself. As to the origin of the name "leap year," it undoubtedly arose from the fact that any date in such year after March 1 "leaps over" the day of the week on which it would fall in ordinary years.

Lesson 1, January 2. THE ASCENDING LORD Acts 1:1-14.

afarjarjarjarjarja olasjarja ofasjarjarjarjarjarjarjar (By Rev. A. F. Stahl.)

Introduction .- We will study this year one of the most interesting books of the New Testament, "The Acts of Luke, one of the Apostle Paul's traveling companions. He wrote also a biography of Jesus. He considered this a continuation of the story of that

life. For the first contained an account of what "Jesus began to do and to teach." In beginning this study. then it will be seen that we are at the very threshold of the church which Jesus was to build. This church was not to be built upon the Jewish church foundation, but upon the fact of His Sonship. Upon this fact, a church can be organized anywhere. The person of Jesus is the important thing now as it was then. "To join the church" should mean to be united to

The Lesson Proper. These verses divide themselves under four heads, as follows:

First .- "The Talks Concerning the Kingdom." The resurrection of Jesus is here mentioned as proven true by eye witnesses. For forty days Jesus speaks to his disciples about the "things pertaining to the Kingdom of Those must have been interesting days to the Disciples, as He enlarged their conceptions of the new religion. Their narrower Old Testathis new idea of God and man and duty. They were told to wait at Jerusalem until they should receive the Holy Spirit (Baptism of the Spirit) after which they would be His witnesses in an ever enlarging territory until the whole world would know of Christ's coming and His mission.

Second-"The Ascending Lord." While He was talking to them He was taken up out of their sight. The cloud rounding the lawn at the High School which hid Him hides Him yet. Only building. If caught, the offender by faith can we see Him now as He sits on the throne in heaven.

Third,--"The Promised Return," Beside these astonished Apostles there stood two angels who, as all angels do, resembled men, said to them: "He shall come in like manner as ye b held Him going into heaven."

Fourth.-"The Praying Apostles. Then these eleven Apostles returned to Jerusalem and with others to the number of 120, formed a prayer meeting, where in an upper room and in a place in the Temple (Luke 24:53) they continued to pray and sing

The city of Maysville won the suft filed against it by John Moran of Cin-cinnati, for damages to the amount of \$1,000, which he claims was done to his property when the old Gold Flour Mill fell on it several years ago. The case was decided in Circuit Court Fri-day and will be appealed.

Mr. Sam Alper spent New Year's night in Cincinnati.

Astigmatism, which is a term applied to an eclipse-like curve of the transparent front part of the eye is another. cause of eyestrain. In the perfect eye that part is sha more like a hemisphere. An astigmatic eye must make unequal adjustments with its internal mechanism to compensate for the faulty curve. This is a severe tax upon the little muscles which govern the mechanism. As a result there are a greater number of reflexes, such as headache and neuralgia pains, than in any other form of eye defect. We will examine your eyes. Broken lenses duplicated
